

## SAFETY PRECAUTIONS

- Please check that all the parts are installed correctly and firmly before first use.
- Do not use this truck in the streets, slopes, ditches or any other dangerous areas
- Do not switch between forward and reverse while the car is in motion.
- Be careful not to let children stand in their seats or use it indoors.
- Do not modify the vehicle wiring or charging device in any way.
- Do not leave your car where it is exposed to the elements such as rain or let any liquids spill in the car as you may damage the ignition beyond repair
- If the car is dirty, wipe with a damp cloth only
- When your battery power runs low the audio and will not work
- This car is suitable for **one child under 25KG** only
- If you are not using the car for a long time, disconnect the battery.
- The product must be assembled and adjusted by an adult.
- Keep children away from moving parts.
- There are small parts not suitable for children under 36 months.
- Do not go near high heat or fire
- Children must use the product under the guidance of adults at all times.
- Do not allow children to stand or play on the steps (or in the electric car).
- **Avoid injury to children: please keep the packaging materials such as plastic bags away from children! Danger of suffocation!**
- Do not use any accessories provided by non-manufacturers.
- Do not use the charger as a toy. Keep out of reach of children
- Do not start or use the ride-on car while it is charging.

## CHARGING INSTRUCTIONS

- To charge, insert the charger DC plug into the charging jack and then plug the Charger into the power socket
- Normal charge time is 2 hours to enjoy about 40-60 minutes driving.
- Please do not charge longer than 2 hours otherwise you will cause permanent damage to the battery.
- Whilst charging, the charger & battery will get warm (below 60°). This is normal.
- Do not charge if there is water on the connector as it may cause a short circuit.
- Use the charger and battery supplied so as not to damage the electrical wiring.
- When the ride-on is not used for an extended time, it must be recharged at least once a month to preserve the battery.

**Congratulations on the purchase of our Young Farmers Truck, we hope it will bring your child endless hours of joy.**

## ASSEMBLY INSTRUCTIONS

**Please retain for future reference**

## PARTS LIST

				
spade	Four wheels	engine	charger	wheel cushion
